A LONGER SEASON for TULIPS

Bulbs are nature's "pre-packaged" flowers. Just give them a place to nestle in the ground. Plant tulips before frost, 6 to 8 in. deep. You can have a long season of bloom: **Red** and **White Emperors** (see cover) followed by **Darwin** and **Cottage**, then the late, peony-flowering double tulips (below) and last, exotic **Parrot**, (opposite page) blooms.

LATE DOUBLE TULIPS, PEONY-FLOWERING

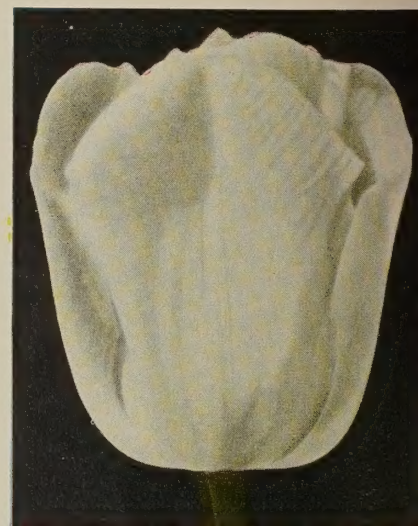

Pictured here, a bed of **Eros** (old rose) **Rocket** (flame red) and **Royal Yellow**. Striking many-petaled, stand 22 to 24 in. tall.

700—EROS, 701—ROCKET, 725—ROYAL YELLOW

Bluish heliotrope, very large blooms on strong stems. Unusual and always popular.

Blue Parrot

Big Bulbs for Big Tulips

Our bulbs are imported, Holland-grown, inspected by Dutch and U. S. authorities before being shipped to us. Since each contains an embryo flower, the bigger the bulb, the bigger the bloom. Ours are all big, top grade, will give you fabulous spring bloom.

711—FANTASY. Lovely soft rose with green markings. (Not illustrated).

708—BLACK PARROT. A sensational, velvety purplish black, with big frilled petals. (Not illustrated).

PEONIES - NEOSHO'S SELECTED

Peonies, with their lavish Oriental bloom, are favorites in the garden or border. Ours are strong roots with 3 to 5 eyes. Plant from mid-August through late November in a bed well prepared with peat moss or compost. Remember that the eye must be covered by not more than one inch of soil. **Peonies** like rich, well-drained soil, full sun and room to grow in. Plant carefully, feed with **Ra-Pid-Gro** in the spring, and you will be rewarded by gorgeous buds in May. For best bloom cut stalk just as bud is about to open, and place in a cool room.

HOW TO PLANT ROSES IN THE FALL

Fall planted Roses establish themselves earlier in the spring and grow on Nature's schedule. In fall planting, get the ground ready ahead of time and be sure not to plant until warm weather is over (Oct. 15 to Dec. 15), so Rose will stay dormant and get a healthy, early start in the spring. Holes for each bush should be at least 12 to 18 inches deep and wide—our Roses have strong roots which should not be cramped. After planting, prune bushes back to 12 inches. Bring in extra soil to mound around the plant 8 to 10 inches above ground. Mound can be worked into Rose bed in spring.

MINIATURE ROSES

**Tiny Blooms on Small Plants
In 4 Lovely Colors**

Miniature Roses are easy to grow, winter hardy, can be used as pot plants in a sunny window. Mailed in dormant condition, they should be re-potted in 3 in. or larger pots at 60° inside. Can be forced into bloom in 6 to 8 weeks. Regular feeding and care as for large Roses recommended. Give them a rest out-of-doors in fall.

HOME ORCHARD SPECIAL

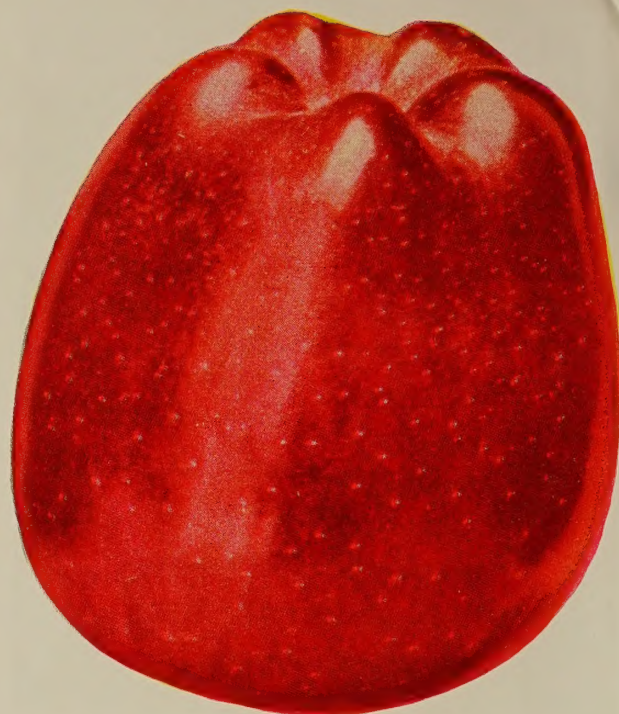

Cat. No. F866

Special Fall Collection of
Twelve (12) Fruit Trees

4 Apple 4 Peach
2 Cherry 2 Plum

ALL 12 TREES

4 to \$17.50
6 Ft. Only

259—**HALE-HAVEN**. (Above). Popular freestone Peach, two weeks ahead of Elberta. Red blush comes before ripening.

PEACHES

253—**ELBERTA**. The Peach everyone knows. Ripens here August 10. Good producer of high quality fruit and parent of the Elberta family.

256—**JULY ELBERTA**. Three weeks ahead of Elberta. A beautiful yellow freestone of quality.

258—**J. H. HALE**. The largest of the high quality commercial Peaches. Ripens August 15, just ahead of Elberta. Quality unsurpassable.

251—**BELLE OF GEORGIA**. Large, creamy white, red blush, wonderful quality. Exceptionally hardy in bud and regular bearer. The preferred white Peach. One week before Elberta.

CHERRIES

SOUR

201—**MONTMORENCY (Gilbert)**. Larger, improved strain preferred by growers and canners.

200—**EARLY RICHMOND**. A Montmorency sport that ripens ten days earlier. More tart, but heavier producer.

SWEET

206—**BLACK TARTARIAN**. Early Sweet Cherry of good quality. Stands hot, dry weather.

207—**LAMBERT**. Bing all over again in quality and desirability, but is red. Ripens a week later.

NEOSHO'S Choice FRUIT

5/16 in.	2-3 ft.	1.30	1.15	1.00	.80

APRICOTS AND NECTARINES

245—**CHINESE APRICOT**. Large fruit, with very sweet flavor. Smooth skin, pale orange color with bright red cheek. Very hardy. Plant with **Superb** for cross-pollination.

246—**IMPROVED SUPERB APRICOT (Scheihing)**. Fruit larger and juicier than regular **Superb**. We secured buds from original tree and have perpetuated this **Apricot**. Plant with Chinese for cross-pollination.

247—**NECTARINE, SURECROP**. Fruit is half and half, with skin like a Plum, seed like a Peach, and meat half way between.

270—**DARK RED DELICIOUS**. (Above). An improved sport of Red Delicious that ripens early and colors a solid blood-red. Delicious eating.

APPLES

276—**DARK RED STAYMAN**. A solid dark red, which makes it a universal favorite. Ripens early October to October 15. Keeps well.

271—**YELLOW DELICIOUS**. Best yellow Apple on the market. Large, beautiful golden yellow. Firm flesh, stores well until late winter.

274—**GOLDEN LODI**. A greatly improved Yellow Transparent. A rich yellow, firm, thick skinned Apple that ships well. Ripens first week in July.

273—**DARK RED JONATHAN**. The most popular Apple in the Midwest. Snappy flavor, good eating and unbeatable for pies.

PLUMS

240—**OZARK PREMIER**. This outstanding cross between Burbank and Methley is an extra large, bright red, delicious Plum which ripens August 1. Bears heavily.

242—**STANLEY PRUNE**. Freestone. Begins bearing second year and produces large, sweet, golden fleshed, purplish blue Prunes.

235—**AMERICA**. Hang as thick on the limbs as they can stick. Rich flavor, good size, yellow with red cheek. Wonderful Plum for jellies, preserves.

DWARF FRUIT TREES

Popular varieties dwarfed produce same size fruit described above. Good landscaping trees, good bearers.

GARDEN SPECIALS

GOOSEBERRIES

400—PIXWELL. Introduced by the U. S. Department of Agriculture. The same high quality and favorable characteristics of Oregon Champion, but with the distinct and favorable advantage that it stands the hot, dry weather so much better and succeeds in the South and West.

Each 70c; 3 for \$1.90; 10 for \$5.50.

RHUBARB

453—VICTORIA. The standard for years. Pink stalked, early, tender. Grown from seed, not divisions, so we can offer roots at much lower prices.

	3 for	6 for	12 for
Small	\$0.50	\$0.85	\$1.45
Medium	.75	1.25	2.10
Large	.95	1.70	2.90

GRAPES

405—CONCORD. The standard for a century. Hardy and productive. Ripens about August 15 in Southwest Missouri.

407—FREDONIA. A larger blue Grape that ripens earlier than Concord. A money maker for growers.

409—AGAWAM. Larger, ripens after Concord. Best sweet red Grape.

410—NIAGARA. Popular white Grape that ripens same time as Concord. **ALL GRAPE PRICES LISTED BELOW.**
